

Synology Disk Station DS-106e

All-in-1 Home & SOHO Server

- Multimedia Server
- Download Station (Bit Torrent, FTP, HTTP)
- Web Server with PHP+MySQL
- File Server
- Printer Server
- Photo Station with Album Control
- FTP Support with Anonymous & Bandwidth Control
- Total Backup Solutions (Network Backup, Local Backup, PC Backup, and USB Copy)

Time to redefine how you share, how you store, and how you connect your data. Meet Disk Station, the small footprint, quiet, stylish, and feature-ready server. A great PC server alternative.

Share More Than just Data

Disk Station integrates so many features you could ever think of in a Home & SOHO environment. It shares data, printer, photo, web, multimedia files and more! Having a Disk Station is connecting all your digital contents. It makes sharing everything easy yet controllable.

Program Your Own Web

Creating your own web site is always a fun thing to do. Disk Station now supports PHP+MySQL. You are free to construct your own web site with dynamic web contents, or to install PHP open source applications from the Internet, such as blog and bulletin board.

Let the Music Play

If you have cool photos, music, and movies, why not share them out? You simply upload the files to Disk Station, hook up a Digital Media Adapter, and you can start enjoying them with your TV or audio set.

Total Backup Solutions

Data backup is so important but people tend to ignore it, Disk Station makes data backup so complete and automatic that backup always be done without your attention. From Network Backup to Local Backup, from USB Copy to PC Backup (Synology Data Replicator II), you can always find the backup alternatives that fit your needs.

Share Photos with Right Persons

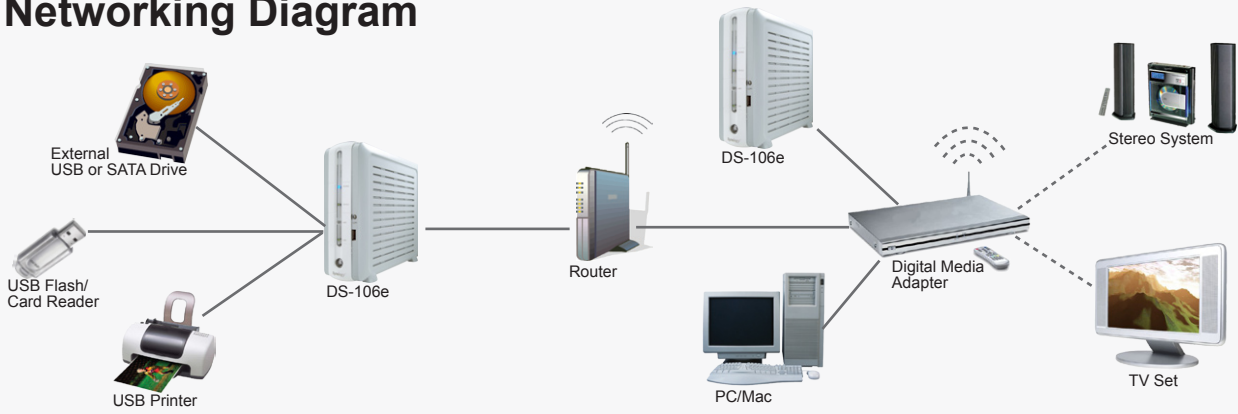

Having trouble to share your photos with right persons? Photo Station lets you not only share them with friends through the Internet, but also control who should be able to view which photo albums. You are now the master of your shared photos.

Continuous Download without PC

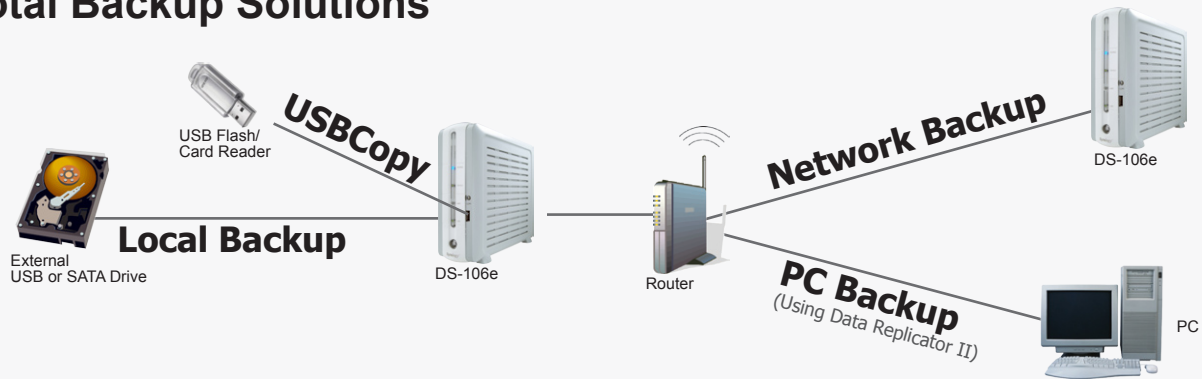

Wouldn't it be cool if you can turn off your PC when you are downloading files? Download Station is just designed for that. You only need to manage the download tasks with Synology Download Redirector, and the files will be transferred to Disk Station. That's it.

Networking Diagram

Total Backup Solutions

Hardware	
Internal HDD	3.5" SATA X 1
External HDD	via USB, eSATA
Max Capacity (Internal HDD)	500GB
USB 2.0 port	X 3
Size (mm)	181 X 212 X 60
Weight	0.5kg
LAN	Gigabit X1
eSATA port	X1
Fan	X1
Power Recovery	V
AC Power Voltage	100V to 240V AC
Power Frequency	50Hz to 60Hz, Single Phase
Operating Temperature	50 to 95° F (10 to 35° C)
Storage Temperature	-40 to 185° F (-10 to 70° C)
Relative Humidity	5% to 95% RH
Maximum Operating Altitude	10,000 feet
UPS over USB 2.0	V
Certification	
FCC Class B	V
CE	V
BSMI	V
C-Tick	V
Environment	
RoHS Compliant	V

Networking	
CIFS	V
Apple Talk	V
FTP	V
File System	
EXT3	V
FAT	V
File Sharing	
Max User Accounts	128
Max Groups	64
Max Shared Folder	100
Max Concurrent Connections	32
Applications	
Photo Station	V
Web Station	V
Download Station	V
Multimedia Server	V
PHP/MySQL	V
Backup Solution	
Network Backup	V
Local Backup	V
PC Backup (DR II)	V
USB Copy	V
Performance Figures*	
FTP download	34.8MBps
FTP upload	10.8MBps
Samba download	24.1MBps
Samba upload	12.8MBps

Management	
Internal HDD Hibernation	V
Hidden Shared Folder	V
Removeable Default Shared Folder	V
Firmware Upgrade	V
Web-based Management	V
Email Alert Message	V
UPS Management	V
Printer Support	
LPR	V
CIFS	V
AppleTalk	V
Supported Clients	
Windows 98 onward	V
Mac OS9	V
Mac OSX	V
Language	
English	V
Germany	V
French	V
Italian	V
Spanish	V
Korean	V
Traditional Chinese	V
Simplified Chinese	V
